**From:** Bertha Johnson, Director of Budget & Management Services  
Roberta E. Bibby, Corporate Sr. Budget & Management Services Analyst

**Subject:** Voluntary Annexation Petition Received by January 2011

### **Executive Summary**

A voluntary annexation petition has been received and reviewed for the Scott King Road Residential development located at 809 Scott King Road, immediately south of the Fairfield subdivision in Southwest Durham. Administration is requesting a public hearing on Monday, October 3, 2011 to hear citizen comments concerning the petitioned annexation and to adopt an ordinance annexing this area into the City.

### **Recommendation**

The Administration recommends the City Council adopt an ordinance annexing the Scott King Road Residential development into the City of Durham effective October 3, 2011, and authorize the City Manager to make a one-time debt payment to Parkwood VFD in connection with Scott King Road Residential.

### **Background**

The Administration is requesting the Council set October 3, 2011 as the public hearing date for this area requesting to be annexed into the City. The public hearing will be held in compliance with N.C. General Statute 160A-58. The area under review has estimated revenues exceeding estimated expenditures within a 6 year window.

### **Alternative(s)**

The Council can choose not to annex the area, which would result in the City providing water and/or sewer services to the petitioned area outside the City limits. In the future, the City could decide to pursue annexation through the City-initiated process. The City-initiated annexation process is much more costly and contentious than the petition process. Staff investigation of qualification criteria, education of citizens, and writing of extensive reports results in considerable administrative expense. Statutes require lengthy delays and numerous public hearings. In addition, citizens opposing the City-initiated annexations frequently challenge the City's action in court, resulting in delays, uncertain start dates for the annexation, and additional legal costs.

**Financial Impact*****Current Zoning (Scott King Road Residential):***

The estimated General Fund revenues generated from this one annexation area under requested zoning at build out in FY2011-12 would be \$52,502. The total estimated expenditures associated with providing City services at build out in FY2011-12 would be \$13,158. The estimated net gain to the City at build out in FY2011-12 would be \$39,344. The cumulative estimated net gain to the City at build out in FY2011-12 would be \$39,344.

Impact fees captured at buildout in FY11-12 account for significantly higher General Fund revenues, and a subsequent drop in FY12-13. Additionally, CIP expenses are realized in FY2013-14 at \$11,880, representing a 0.3% proportional cost of a new Fire Station.

A cost benefit analysis is attached that provides additional details through FY2016-17, including CIP expenses.
